

Hurricane Factory Berlin Cup 2025

6th German Nationals in Indoor Skydiving 2025 (FS8 only)

ANNOUNCEMENT

Disciplines:

4-Way Indoor FS
8-Way Indoor FS
Kids-Challenge

Competition classes

Open
Open (German Nationals FS8)
juniors age 7 - 14

For 8-Way Indoor FS: In order to be able to score the competition entries, a minimum number of four (4) teams or competitors (for solo competitions) is required. If the minimum number of teams or competitors in a given discipline is not reached, no German Champion will be determined.

However, at the request of the field of participants, the possibility can be set up to still hold the discipline in question in order to use the results as a qualification for international competitions.

Organizer: Bundeskommission Fallschirmsport (BKF)
Federal Commission Skydiving

Ausrichter: Hurricane Factory Berlin GmbH
Waßmannsdorfer Allee 3
12529 Berlin-Schönefeld OT Waßmannsdorf

Website: hfcup.hauptstadt-windkanal.berlin

Goals

- Determine the German Champion and standings of the competitors in each of the mentioned disciplines

- Gaining knowledge about the qualification level and performance level in Germany
- Support competitive sports and juniors
- Bringing indoor skydiving and skydiving closer to the general public by promoting the German Nationals via press, radio and TV.
- Strengthening the indoor and outdoor skydiving community
- Achieving new records
- Training and continuing education of Judges

Preliminary remark

The main purpose of the event is to find the German Champion in 8-Way Formation Skydiving considering the rules of the FAI and the federal commission Skydiving (BKF). The event also intends to make indoor skydiving and outdoor skydiving known to the general public and to make it accessible for everyone.

Another purpose of the event is to highlight the inclusive character of our sport by including disciplines for juniors starting with the age of 7.

Waßmanskörfer Allee 3
12529 Berlin-Schönefeld OT Wassmanskörfer

Organizing officials

Lead organization: John Georgi / Marc Wegner
Meet director: John Georgi
Chief Judge: Marc Frielingsdorf
Technical director: -

Judging

In accordance with the BKF (Federal Commission Skydiving) competition regulations for German Skydiving Championships 2023 version 10.

Protest procedures

Protest procedures in accordance with the FAI/ISC Sporting Code, Section 5 regulations.

Rules and number of competition rounds

The official rules for all disciplines can be found here <https://www.dfv.aero/Sport/Wettbewerbe/Wettbewerbsregeln>. Rules are based on the current FAI/ISC Sporting Code, General Section, Section 5 – Skydiving, the *Wettbewerbsordnung Deutsche Meisterschaften (WDM) 2023 Version 10* (if applicable for Indoor Skydiving) and the current regulations and dive pools for each disciplines.

- **4er IFS** 10 rounds with 35 seconds working time each round
- **8er IFS** 10 rounds with 50 seconds working time each round
- **Kids-Challenge** 2 compulsory rounds, 3 free routine rounds

Participation requirements

For 8way FS: Every competitor must be a member of the DFV (Deutscher Fallschirmsportverband *German Skydiving Association*) or of the DAeC (Deutscher Aero-Club *German Aero-Club*). Please prove your membership via submitting your membership ID upon sign up for the competition.

This participation requirement does **not** apply to non-German competitors or teams and does also not apply to attendees for the FS4 competition as well as the KIDS-Challenge.

If a membership is required, a membership sign up form can be found in the download area of the DFV webpage. www.dfv.aero/Service/Downloads

It is each competitor's responsibility to use equipment which is appropriate for the according discipline he/she intends to compete in. Equipment will be checked by the event organizers. The minimum equipment required is a suitable flying suit, shoes, helmet (without any camera mounts), hearing protection (provided by the wind tunnel) and goggles (if applicable). An appropriate protection is welcome.

With the sign up for the competition every competitor accepts the terms and conditions for the event. Not following the rules can lead to a disqualification of a competitor or a whole team. Each participant individually agrees to follow the organizer's instructions in connection with the competition.

The participation for each competitor is limited to maximum two (2) disciplines and two (2) sub-disciplines with the limitation to only one (1) class. VFS is counted to artistic disciplines. A participation in three (3) or more sub-disciplines is not permitted.

Example: Discipline: **FS** / Sub-Disciplines: **FS4 / FS8** – Classes: **Open, Female, Intermediate** etc.

This means for example: A competitor can compete in the discipline FS in two teams as long as those teams are **not** competing in the same class within the same sub-discipline. Therefore, a competitor in FS can attend in a FS4 team and in a FS8 team, but not in two FS4 or two FS8 teams at the same time.

The event organizer will not accept sign ups of competitors if the above restriction is exceeded.

Anti-Doping

According to the requirements of the national anti-doping agency (NADA) and the Deutscher Olympischer Sportbund (DOSB), doping tests will be carried out at our German Nationals in Indoor Skydiving. **All competitors** are subject to the possibility of being called in for such a doping control.

It is expected that up to 5 (five) competitors will be selected for doping tests. The current Anti-Doping regulations and measures can be found on the homepage of the DFV (<https://www.dfv.aero/Sicher/Medizin+Gesundheit/Doping>) or can be requested via the DFV office.

If you are taking a medication indicated by NADA/WADA for medical reasons, your intake must be reported using the TUE (therapeutic use exemption) form before the start of the competition. The relevant forms can be requested from the DFV office or directly from NADA.

Video and photo rights

When registering for the competition, all participants agree to transfer their rights to their own image, especially with regard to footage taken during the event, for the duration of the competition and beyond with the organizer to use and share, including for use in the context of public and press work.

Auswertungssysteme: DynamR Live Judging

Anmeldung und Kosten

The registration will be done via: [Anmeldeformular](#)

8FS	800,00 € pro Team
4FS	450,00 € pro Team

Late registrations after the deadline are only possible with the approval and confirmation of the organizer. Late registration fee is 15 € per person on top of the normal registration fee stated above.

Cancellation

If a competitor or team does not compete after a successful registration for the competition the organizer refunds the costs for the flying time (competition entries and speed setting rounds, price depends on the discipline) but not the costs for the organization fee, the goodie bags and the dinner buffet /after party.

A cancellation before 7th of January 2025 will be 100% refunded.

Due to the sill unstable situation at the energy market the organizer reserves the right to cancel the event in whole or in part if a sudden increase in energy costs is putting the economic viability of Hurricane Factory Berlin GmbH at risk. In the case the event is being cancelled by the

organizer the registration fee will be refunded. 50,00 € of the registration fee will be withheld to cover costs for the organization of the event.

Medals, certificates, cups

The 1st, 2nd and 3rd place in each discipline will receive medals.
Every competitor will receive a certificate.
